

Overview

FAA regulations require instrument-rated pilots to perform six instrument approaches, holding procedures and basic navigation every six calendar months in order to act as PIC under instrument flight rules. However, if you are like most instrument pilots, keeping IFR current is oftentimes difficult, time-consuming and expensive.

Avia's *Instrument Refresher* is the quick, cost-effective path to complete IFR currency. In only two hours, and for less than \$200², you'll perform all regulatory tasks and meet the requirements of 14CFR61.57(c) in a single simulator session. You'll have the opportunity to fly all approaches down to minimums in a realistic and challenging environment - including circling approaches, missed approaches and your choice of an IFR emergency. Avia's advanced simulators, featuring an incredibly realistic wrap-around visual system and Garmin® 430 GNS, can be configured for a variety of single or multiengine aircraft to match your specific needs.

Prerequisites

To be eligible for enrollment in Avia's *Instrument Refresher course*, the candidate must

- Be instrument rated (or hold an ATP)
- Have met the requirements of 14CFR61.57(c) within the previous 12 calendar months (otherwise Avia's *Instrument Proficiency Check* course will be required)

Course Completion Requirements

To be eligible for course completion, the candidate must

- Complete the requirements of 14CFR61.57(c)

Program Cost - SINGLE ENGINE PISTON¹

Qty	Description	Cost
2.0 hrs	Device (Simulator) Rental with Instructor (Dual) - <u>SINGLE ENGINE PISTON</u>	\$ 190.00

** Available Flight Models: C172/C182/C182RG/PA28/PA28R/M20J/A36/A36TC

Program Cost - MULTI ENGINE PISTON¹

Qty	Description	Cost
2.0 hrs	Device (Simulator) Rental with Instructor (Dual) - <u>MULTI ENGINE PISTON</u>	\$ 230.00

** Available Flight Models: BE58/BE58TC/PA34/PA44/C414

Program Cost - MULTI ENGINE TURBOPROP¹

Qty	Description	Cost
2.0 hrs	Device (Simulator) Rental with Instructor (Dual) - <u>MULTI ENGINE TURBOPROP</u>	\$ 270.00

** Available Flight Models: King Air (C90B, A100, B200, 1900D)

¹ All rates shown are subject to change without notice. Call Avia for current pricing. Errors and omissions excepted.

² Single-engine piston aircraft models. Additional charges apply for multi-engine piston and turboprop models.
