

Overview

Avia's Prelude program is the perfect way to begin your Private Pilot certification training with a limited initial commitment. If you are uncertain about learning to fly, but want more than a simple introductory flight lesson, the Prelude program offers the chance to "test the waters" before jumping in. Prelude is a series of five integrated flight, simulator and ground lessons that together form a mini-course on the fundamentals of flight.

The ground school segment includes four (4) hours of classroom time emphasizing flight theory and aircraft systems. The six (6) hour flight training segment consists of five training activities, including two simulator sessions followed by three airplane training flights. Special discounted pricing applies.

Most importantly, all flight time, simulator time and materials can be applied toward your Private Pilot training when you elect to continue with the full program. With Prelude, there's nothing to lose!

Prerequisites

To be eligible for enrollment in Avia's *Prelude course*, the candidate must

- Be able to read, speak, write and understand the English language
- If a US citizen, show proof of citizenship
- If not a US citizen, have received TSA clearance
