

Overview

Avia's *Skyhawk™* program introduces children to the wonder and thrill of flight. This specially tailored experience puts your 8 to 16 year old in the pilot's seat, and includes both simulator and flight activities. Under the guidance of an FAA certified instructor, your son or daughter will learn how an airplane is controlled.

This abbreviated alternative to Avia's more comprehensive flight camp program (SkyQuest) begins with one hour of ground school on the fundamentals of aircraft control. Next is an exciting one hour session in Avia's full size flight simulator in which the student applies the concepts discussed in the ground segment. After that, its up, up and away in the actual aircraft for a scenic trip to Flagler Beach and back. A digital photo and certificate commemorate this very special event.

One adult is permitted to accompany the junior pilot on this exciting adventure, subject to aircraft weight limitations. An included logbook is provided to permanently record this memorable journey.

Prerequisites

To be eligible for enrollment in Avia's *Skyhawk™* course, the candidate should

- Be at least 8 years of age (recommended)

Course Content

Qty	Topics	Classroom	Simulator	Aircraft
